

AURORA

Open Science and Citizen Science: From Principles to Practices

27
Mar.
10-12 h

Training 3

Open Access publishing, Open Peer Review, Citizen Science communication and public engagement

This session investigates the evolving landscape of scholarly communication and the transformative role of Citizen Science in higher education. By examining community-governed infrastructures and biodiversity monitoring initiatives, our speakers will illustrate how institutional alternatives to traditional publishing can effectively bridge the gap between academia and society.

Speakers

- **Alban Decaux (UPEC)**, *Alternatives to Traditional Publishing: The French Open Science Model*
- **Florian Westreicher (UIBK)**, *Citizen Science at the University of Innsbruck: How to Communicate Citizen Science*

Chair: Maria Helena Cruz de Carvalho (UPEC)
